Elegant styling

- ✓ High quality, timeless, frames/sight-lines, graceful elegance, light delicate feel inside and out creating a sense of airiness and space.

Choice

- ✓ Choice of styles, 46 colours, dual colour option.
- ✓ Match or contrast with your interior décor.

*Available through our network of
local Crittall Window Specialists*

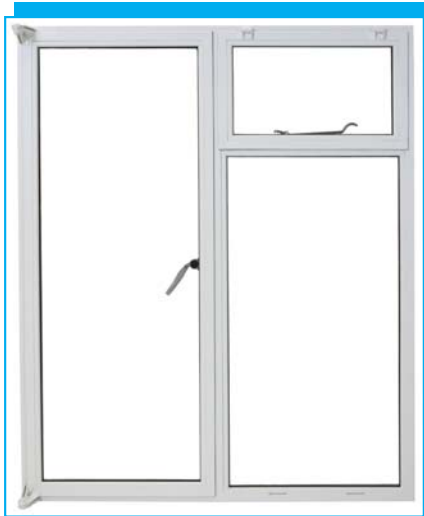

Timeless elegance

HomelightPlus™ steel window range

Key features:

The 21st Century enhanced version of Crittall's successful Homelight window, first made by the company during the 1920s. The new range is designed for applications where smaller, typical sizes are specified.

- ✓ Maximum day/internal light. The design incorporates larger areas of glass than similar sized windows, with slimmest frames available as originals.

- ✓ Visually authentic replacement window. Cosmetic or true divided glazing bar options available.
- ✓ Traditional hardware – different styles/finishes suiting internal finishes; friction hinge, handle, peg-stay options.
- ✓ Low maintenance, hot-dipped galvanised, Polyester powder finish. Redecoration not required for 25 – 30 years.

First And The Best

Crittall pioneered steel frame window manufacturing 160 years ago. Its products remain the original and the finest, uniquely featuring Crittall quality and the very best in British manufacturing standards.

- ✓ Strong, durable frames, fully-welded corners and a choice of finishes.
- ✓ Robust multi-locking hinge as an additional security feature.
- ✓ Glazing up to 24mm, dual double finned weather-stripped.
- ✓ Same sizes/styles as imperial units.
- ✓ Built-in ventilation via trickle ventilator option.
